

Friday November 11, 18:30-20:00
Mediterranean Room, Blue Zone

Avoiding Irreversible Ocean and Polar Thresholds - Raising Ambition for 2018 Facilitative Dialogues

Photo by Anna Silyakova

Risks of Irreversible Changes to Oceans and Cryosphere and Current NDCs: *Building on the Paris Agreement*

- 18:30 **Welcome**
Christy Goldfuss, Managing Director, White House Council on Environmental Quality (CEQ), U.S.
- 18:40 **Ocean Acidification and Warming and Current NDCs.**
Dr. Carol Turley OBE, Sr. Scientist, Plymouth Marine Laboratory
- 18:55 **Risks of Irreversible Cryospheric Change and Current NDCs: Ice sheets and Sea-level rise, Sea Ice and Permafrost.** Dr. Svante Bodin, Director, ICCI-Europe and Chair, Swedish Meteorological Association
- 19:10 **Arctic Changes Mean Global Changes: The Arctic Council's Latest Assessments: Acidification and SWIPA 2017.** Dr. Lars-Otto Reiersen, Executive Secretary, Arctic Monitoring and Assessment Programme
- 19:25 **Science Evidence to Needed Policies: The IPCC's 1.5°C and Oceans and Cryosphere Special Reports.**
Hans-Otto Pörtner, Co-Chair of IPCC WGII
- 19.40 **Intergovernmental Responses and Mandate to Changing Oceans and Cryosphere.**
Dr. Vladimir Ryabinin, Executive Secretary, IOC-UNESCO

Followed by Q&A/Panel Discussion
